

Wednesday 7 October

10 from 10 Attendance Challenge

Thank you for your continued support in helping your child attend school every day and arrive on time.

This autumn, we are bringing back our **10 from 10** attendance challenge. The challenge is designed to encourage students to build strong attendance and punctuality habits and recognise the effort they make to be in school every day.

Here is how it works:

- Students aim to attend school **on time for 10 days in a row**.
- Once they reach 10 days, they can continue to **15 and then 20 days**.
- Students who meet the challenge and have enough positive points on ClassCharts will receive a **reward postcard**.
- Students will also have the opportunity to **win an Amazon gift card**.
- There will be a **tutor group team competition** to make the challenge fun and encourage everyone to get involved.

We know that the colder months can sometimes bring minor coughs and sniffles. Where your child is well enough to attend school, please continue to send them in. **Every day matters**, and regular attendance helps students keep up with their learning, maintain friendships and feel confident in school.

Thank you for your continued support. If your child is experiencing difficulties that are affecting their attendance, please contact the school so that we can work with you to provide support.

Yours faithfully,

Ms C Israel

Deputy Headteacher
